

10 YEAR ORIGINAL ACCURACY GUARANTEE

Your Nikon Metrology CMM is guaranteed to maintain its original accuracy specification for a period of 10 years*

10 Year Warranty

Should Nikon Metrology be unable to successfully calibrate your CMM to its original accuracy specification, with respect to dimensional stability due to failure of a structural component[†] within 10 years from the date of purchase, Nikon Metrology will repair or replace the faulty structural component/s, at the discretion of Nikon Metrology and at no cost to the customer, so long as the following conditions are maintained during the 10 year period from the date of purchase.

- The CMM is operated in accordance with the instructions provided by Nikon Metrology.
- The CMM is connected to a power supply and air supply in accordance with the Nikon Metrology installation drawing.
- Only Nikon Metrology authorised service personnel have carried out service, maintenance, modification or repair work on the CMM.
- There is no evidence of tampering, mishandling, neglect or accidental damage.

The ownership of this warranty is transferable providing the CMM has been re-located under Nikon Metrology supervision and under the conditions set out above.

Nikon Metrology shall have no other or further liability in respect of any direct, indirect or consequential loss or damage sustained by the customer arising from or in connection with this warranty.

[†]Structural components are defined as: (a) granite table, (b) bridge ceramic beam, (c) ceramic spindle, (d) bridge master steel leg, (e) bridge slave steel leg, (f) carriage fabrication.

*Under the terms provided hereunder and detailed in the prevailing sales contracts and documents.
