A cost-efficient polarizing microscope incorporating industry-acclaimed CFI60 infinity optics

The E200POL features an extremely compact body that takes up little space on your desk, making this instrument easy to use or transport. And because the E200POL’s design is based on the ECLIPSE E200 biological microscope, it shares the same objectives and uses many of the accessories created for higher-grade ECLIPSE series microscopes, enabling more advanced polarizing microscopy. As you might expect, the E200POL maintains the same operational ease and rigidity as other ECLIPSE series microscopes.

The E200POL Standard Set (Filter is optional)

1/4 Lambda and tint plate
A 1/4 Lambda and first order red tint plate combined on one slider is available to measure and identify the retardation qualities of the specimen.

Conoscopic observation
The intermediate tube with a Bertrand lens lets you observe conoscopic images. This feature is perfect for uniaxial or biaxial crystal identification, or for evaluation of other optical qualities such as optical signs.

Digital Camera System for Microscopes

Digital Sight Series

High-definition Color Camera Head DS-Fi2
A 5-megapixel color CCD captures fine-textured images in faithful color.

Stand-alone Control Unit DS-L3
The stand-alone controller and its large display monitor enable image capture without a computer. Touch-panel or mouse operation allows setting and control of a camera by simply choosing the “scene mode” icons. Simple measurement functions are also available.

CFI60 infinity optical system
The CFI60 optical system combines Nikon’s renowned CF optical design with infinity optics to overcome the limitations of the traditional infinity design. CFI60 optics provide longer working distances and higher N.A.’s to deliver startlingly clear images at any magnification because chromatic aberrations are corrected over the entire field of view. Nikon CFI optics employ an eco-glass that is manufactured with no harmful substances such as lead and arsenic.

Reversed-type nosepiece
The reversed-type quadruple nosepiece provides more space at the front of the stage to make handling of specimen slides fast and easy. Another advantage of CFI60 objectives is that their increased objective lengths and longer working distances provide more working space around the nosepiece.

Convenient viewing
The Siedentopf-type eyepiece tube—P-TB2 binocular or P-PT3 trinocular—is inclined at 25° to ensure a natural posture for more comfortable viewing.

Robust, vibration-resistant construction
A solid one-piece casting from arm to base, plus a substantial 188.5mm width, provides greater rigidity and resistance to vibrations. The E200POL is a synthesis of great Nikon optics and solid, vibration-resistant construction.

Easy lamp replacement
The microscope comes with a unique top-access 6V-30W halogen illuminator. Simply slide open the lens-unit cover to replace the lamp.

For even greater cost performance, the E200POL Basic Set is also available:
• E2-TB Binocular Tube or E2-TR Trinocular Tube can be selected. Their eyepoint height can be raised 34mm by simply swinging the front part of the tubes up 180°.
• Eyepiece lens: CFI E 10x (F.O.V. 20mm)
• Excellent cost performance

E200POL Basic Set (Filter is optional)

| Coarse/fine focusing   | Fine: 0.2mm per rotation; Coarse: 37-7mm per rotation; Minimum reading: 2 microns on left-side fine control knob; Coarse motion torque adjustable; Refocusing system incorporated in stage |
| Stage                  | 160mm diameter graduated stage; 1° increments and vernier reading 0.1° |
| Illumination           | Built-in 6V-30W halogen lamp precentered and prefocused. Continuously variable intensity control. Multi-voltage compliant (100V-240V) |
| Objective              | CFI P Achromat 4x, 10x, 20x, 40x, 100x oil |
| Condenser              | Dedicated strain-free swing-out type |
| Polarizer              | Attachable to bottom of condenser |
| Compensator            | Standard 1/4 λ and tilt plate. Quartz wedge or Senarmont compensator can be inserted into intermediate tube slot |
